Guide to Adding Nic Shots

1 Gather Ingredients

2 Add Nicotine Shot

* If the bottle nib has an O-ring attached, remove it prior to step 3. Failure to do this will result in leakage.

3 Shake Thoroughly

Q- "Why is the nicotine so harsh?"

A- "You need to allow the mix to breathe. The best way to do this is by taking the lid off and leaving it in a cool dark place 3-7 days."
